OREGON SEED CORN.—I have to-day received a few bushels of this extraordinary corn, iistroduced by General Wm. H. Harrison in 1839, and which last year yielded 121 bushels to the acre, and shelled 7½ bushels to the barrel. This corn is well worth the agriculturist's attention, as its yield is at least 20 per cent. over the common. For a full description of it see Patent office report, 1845, page 434.
